

Why Put Your Brand and your Customers at Risk?

Of costly

RIM DAMAGE

And the safety risk of
Wheel and
Tire Damage

CurbHuggers™ ***for QSR, ATM drive-thrus, parking lots, garages***

Protect Your Customers and Protect Your Business

It's an engineered ultra-high molecular-weight polyethylene plastic extrusion designed specifically to be attached to existing and new concrete curbs to protect vehicles wheels at contact.

Patent Pending

“Even before the COVID pandemic hit, between 60% – 70% of some certain quick serve restaurant’s sales came from drive thru lanes... It is now a staggering 90% of all sales.” -*Food Truck Empire, May 2020*

“Speed is less important to consumers than safety and quality of service.” -*QSR Magazine*

A Proprietary Solution

Tire marks don't just look bad,
they showcase how often
tires and wheels hit your curbs.
